## A. Mathews Named to Committee of Safety Council

Arthur J. Mathews, Safety Director, has been re-elected to the Executive Committee of the Electrical Equipment Section of the National Safety Council. This Committee will serve on the Radio, Electronics, and Lamps Division.

This is the second year Mr. Mathews has served on the Executive Committee. He was re-elected while attending the annual convention of the National Safety Council in Chicago, October 20-24.

While at the convention in Chicago, the Sprague Electric Safety Director was initiated into the Veterans of Safety (Boston Chapter). The Veterans of Safety is an organization whose requisite is that the person joining have 12 years of practical experience in the safety field.

Sprague Electric servicemen on leave of absence receive the LOG. There are about 90 on the LOG mailing list.

## Sprague Products Employee Wins A "Sparky Joe" Savings Bond

**"SPARKY JOE" WINNER**—Virginia Spencer, second "Sparky Joe" Contest winner, shows her \$25 Savings Bond to, l. to r., Rose Mazzu and Suzette Lemieux.

Virginia Spencer is the second "Sparky Joe" Contest winner. Seated at her desk in Sprague Products, Virginia was presented a \$25 Savings Bond for answering the four questions correctly and writing a prize-winning essay in the "Sparky Joe" Contest which appeared in the October 17 issue of the LOG.

The winner is the mother of five children who range in ages from 12 to 2. David, the eldest, is 12, Stanley is 10, Peter 9, Jean 3, and Christine, the baby, is 2.

Virginia's husband, Art Spencer, is employed at Sprague Electric as is her sister, Priscilla Northup, and her brother, Fred Windover. The Spencers make their home at 16 Freeman Avenue.

Virginia correctly answered all the questions. She knew that Sprague Electric sells more capacitors than any of their competitors (Question 1-b), that the function of Sprague Products is to distribute Sprague products to jobbers and thus to the retail trade (Question 2-c), that about 4100 people are employed in the three North Adams

Sprague Electric plants (Question 3-d, b also accepted), and that each day an employee at Sprague Electric is allowed 20 minutes during which he is not required to work and for which the Company pays him (Question 4-b).

Mrs. Spencer wrote her essay on the Sprague Products Company. She wrote: "Sprague Products Company is a wholly-owned subsidiary of Sprague Electric whose function it is to distribute Sprague products to jobbers and thus to the retail trade. This is pretty high-sounding, stuffy talk, and it falls far short of describing the thriving, humming, never-stop activity begun nearly 20 years ago by Harry Kalker.

"Sprague Products is many things--rush-rush orders pouring in by mail and by phone -- Dot Stein checking the factory to get an order through for a customer's deadline -- Ken Blanchard trying to keep a customer happy on the phone -- a large and efficient office staff -- "Mrs. D." balancing her accounts -- Helen Daniels turning out Harry Kalker's voluminous correspondence -- Hank Gamari getting all

## LOG Reporters and Staff Members Enjoy Annual Banquet, Entertainment Highlights Affair

Maybe it was the pre-election tension or maybe it was some Halloween spirit left over, but the annual LOG banquet held at the Clarksburg Sportsmen's Club on November 3 was one of the most energetic LOG parties ever.

Almost 100 LOG reporters, staff members, and special guests attended the party to celebrate another successful year of putting out the LOG. Master of ceremonies Jack Washburn took charge of the program.

After cocktails and dinner, Mr. Washburn called on Joan Mulcahy,

Manager of Publications, who commended the reporters for the fine job they had done throughout the year. Then, the guest of honor, Robert C. Sprague, was called upon to say a few words. Mr. Sprague expressed his pleasure at being in attendance and commented upon the growth of the LOG.

Special guests present at the affair were George B. Flood, William J. Nolan, Ralph Boisjolie, Robert Sprague Jr., George Giroux, William Phelps, Courtney Flanders, Ethel Lowe, Arthur

Mathews, Fred Whitham, William Roberts (Excelsior Printing Company), Guy Weston (Excelsior Printing Company), and Arpiar Saunders (Greylock Photo-Engraving). Ernest L. Ward and Julian K. Sprague were unable to attend and sent their regrets.

A door prize was awarded and Ceil Trudeau, LOG reporter for Shipping, was the lucky winner. Later in the evening, Mary Bua and Frank Santelli were presented prizes for winning the spotlight dance. Jimmy Valotta, of F. P. Cover Assem-

ly Ovens, played for the dancing.

The highlight of the evening was the fine entertainment written and put on by Kenny Russell. Kenny presented a program which was a take-off of the Ted Mack television show. Participants in the show were dancing peanut girl Fran Melito, John "Ted Mack" Davis, that virtuoso of the keyboard Bill Phelps, Cora Ryan, who recited, singing Frank Santelli, a quartet, "The Howling Foursome", composed of Peter Mancuso, Jack Washburn, Tom Cullen

and Ralph Boisjolie, and a make-believe orchestra; the musicians were Ed Cook, John Walsh, Larry Hiser, John Gallese, Chick Currant, and it featured the noted vocalist Ethel Lowe. Kenny Russell acted as announcer and Robert C. Sprague presented the key to the city (appropriately enough it was North Adams).

The members of the LOG Social Committee who made the plans for the party were Ann Heath, Betty Jangrow, Fran Melito, Emma Mutart, and Ceil Trudeau.

## Know Your Foreman . . .

Charles F. Wilson

Charles F. Wilson, Foreman of the Salvage Department at Brown Street, has seen the Salvage Department grow from the ground up. Seven years ago, Charlie transferred from his job in the Maintenance Department, where he had been since coming to Sprague Electric in 1942, and set up an entirely new department, the Salvage Department. This new department was concerned with one thing -- salvaging usable waste materials. Once, the Company had hired concerns to take the waste materials away. Now, the waste materials are cleaned and sorted for reuse or sale. Armed with a Bendix, a press, and equipment which itself has been "salvaged", Charlie and his men have turned waste into profit.

Any one visiting Charlie in his little office in a corner of the salvage building will find the walls adorned with pictures of horses. Some are horses he has trained; some are horses he has owned. Charlie has trained horses and taught people to ride for many years. For a time, he owned and operated a riding stable in Williamstown.

The Salvage Department Foreman's interest in horses began when he was a boy in England. There, he learned to ride and spent many hours in the saddle. When he came to America at the age of 16, he made teaching riding his business and began a career in the horse business which lasted for nearly 30 years.

In 1921, Charlie deserted his horses for a while to run a cleaning business, but in 1934 he was back in the business of teaching people to ride. On November 9 of 1942, he came to Sprague Electric and has been here ever since.

As fond as Charlie is of horses, another hobby vies for his attention. He is an enthusiastic gardener, raising both vegetables and flowers. In the summer, it is not unusual to see him proudly showing off an over-sized carrot or tomato which he grew in his garden.

Mr. Wilson and his wife, the former Gladys Marshall, make their home at 63 North Street, Williamstown. They were married in 1912, the year Wilson and Marshall were elected President and Vice President. It was a great year for the Wilsons and the Marshalls.

**NEWS:** Women are better than men at learning to drive cars, in the age ranges 18 to 35 and 61 to 65, the Automobile Club of New York reports.

An American industrial employee at his machine may command the total brown power of 165 strong men; electricity supplies almost 90% of our industrial energy.

### Williams-Tufts

An injury-riddled Williams eleven, for the first time since Coach Watters took over the helm, were forced to bow in defeat to a fighting Tufts eleven. It was a typical clash between these old rivals and the outcome was in doubt throughout the second half.

Williams in previous encounters this season started the scoring early. Fred Broderick, who played a great game for the Purple from the fullback slot, opened the scoring in the opening canto by crashing over the goal from about six yards out.

Early in the second period, Tufts roared back to tie the score. Both teams failed to convert.

Just before the first half came to a close, Williams struck pay dirt again. A couple of passes and a five-yard run by Bethune placed the piskin on the one foot line where Broderick bucked it over. Once again the try for the extra point failed.

The fireworks failed to break out in the third period with Williams leading 12-6, but at the opening of the final fifteen minutes of play, both teams caught fire.

Tufts scored with lightning suddenness when Lawrence took a Williams punt on his 48-yard line, eluded several tacklers, and dashed down the sidelines to score and tie the game. The point after was good and Tufts led 13-12.

In a desperation gamble, Fearon passed from his ten-yard line for Williams and connected with Fred Broderick on the 35 where Broderick made a great catch, slipped out of the grasp of two would-be tacklers, broke out into the clear at mid-field and sped goalward untouched as pandemonium broke loose in the stands.

This time Fletcher's point after was good and the Ephs led 19-13.

With less than five minutes to go, Tufts opened up an aerial game of its own and finally with two minutes showing on the clock Tufts scored from the two-yard line to once more tie the game.

Chase's extra point attempt just cleared the horizontal bars between the uprights and gave Tufts that needed point and victory.

### Williams-Wesleyan

Faced with a disastrous season due to the epidemics of injuries which have plagued them, the Williams eleven rose to the heights and, playing the role of opportunists, won over their favored arch rival Wesleyan, 14-6.

The wintry weather made conditions rather poor at kick-off time, but improved as the afternoon wore on.

Before a crowd of some 5000, Wesleyan drew first blood by scoring their only touchdown in the second quarter. Williams played a sharp defensive game in the first half and had an opportunity to score after recovering a fumble, only to return the compliment.

The third quarter was not too far gone, however, when on a routine punt return, the visitors fumbled on their own 18-yard line and in six plays Broderick bulldozed over for the Eph men to knot the score.

When Fletcher added the all-important extra point, pandemonium reigned in the Williams stands.

Shortly after the next kick-off, Brigham, Wesleyan back, faded to pass on his 35-yard line, but his pass was partially blocked by Ames, left guard of the Purple forward wall, and deflected into the hands of Sims, Williams right tackle, who scampered unmolested with the clinching 6 points. Fletcher again converted and Williams was out in front, 14-6.

For the remainder of the game, the Len Watters aggregation played a stellar defensive game featured by

shipments to the customers -- and a large staff of representatives continually lining up new friends for Sprague, while building up business from the old ones.

"All this is Sprague Products -- and yet to me Sprague Products is, more than anything else, a tribute to the initiative, salesmanship and remarkable personality of one man -- Harry Kalker. Of all his hundreds of customers, there are few who do not call Harry by name, as a friend. And when extra-special service is needed, the customer still says 'Let me talk to Harry!'"

"Off and on I've worked at Sprague Products since 1938. ('Off', to have three boys and two girls!) In all that time, I've sincerely counted myself lucky to be a small part of an organization whose 'head man' is held in such high regard by his associates, his employees, his competitors, and the entire radio parts industry."

The first "Sparky Joe" Contest winner was Clotilde Astorino of the Sales Office. Who will be the next lucky winner of a \$25 Savings Bond?

When we quit grumbling about everything that is wrong, we'll have more time to put things right.

## J. LaFrance, Korean Veteran, Awarded Purple Heart Medal

Corporal Joseph LaFrance of the U. S. Marine Corps has been awarded the Purple Heart Medal.

Corporal LaFrance has been in Korea for the past ten months. He enlisted in July of 1951 and left his job in the A. C. Dry Assembly to go to Parris Island for his boot training. Corporal LaFrance's father, Raymond LaFrance, is employed in Filter Assembly.

## Pfc. William Morandi Receiving Training As Part of NATO

Pfc. William J. Morandi now is serving in Germany with the 43rd Infantry Division.

His division, stationed in the southern part of the country, is receiving constant field training as part of the North Atlantic Treaty Organization (NATO) Army.

Pfc. Morandi has been assigned to the Headquarters and Service Company of the 143rd Tank Battalion.

Before entering the Army in April, 1951, he was employed in Industrial Oil Impregnating.

## An American Custom

When Mother prepares Thanksgiving dinner, she is observing a tradition that dates back to the farm communities of Biblical days.

For while Thanksgiving in its present form is strictly an American holiday, it seems to have grown out of the ancient practice of holding a "harvest festival" to give thanks after the crops had been gathered. The Bible orders such thanksgivings, and the festivals, observed by the ancient Greeks and Romans, came down to us through the Saxons of early England.

The first American Thanksgiving was held by the Pilgrims at Plymouth in 1621. Only 55 of the 101 colonists had survived the first winter in America. But summer brought good crops. When the harvesting was over, Governor Bradford sent four hunters into the woods to procure wild turkeys and other game birds. In one day the hunters bagged enough to last the colony for a week.

Chief Massasoit and 90 Indians were guests at the feast, which lasted for three days. The Indians contributed five deer to the menu.

The Colony of Connecticut held its first Thanksgiving in 1639. The Dutch in New Netherland, now New York, had their first official day of thanks in 1644.

During the American Revolution, the Continental Congress recommended annually that days of thanks be observed. In 1789 President Washington appointed a day of Thanksgiving after adoption of the Constitution. Since 1863 our Presidents have always issued a proclamation naming Thanksgiving Day.

**TRAINING GROUP TAKES A LOOK AT BATHTUB ASSEMBLY**—Members of the Special Indoctrination Course hear James Nicol, Foreman, explain the manufacturing processes in Bathtub Assembly. This group is taking a training course set up by the Training Section of the Employee Relations Department. The participants in the course are Emanuel Belmont, Richard Carpenter, George Kerwin, John Newman, Robert Koch, Robert Burleigh, Meyer Schwarz, George Wesson, James White, Edmund Wojniolowicz, Roland Yli, Robert O'Hare, and Charles Wacker. All of the members of the group were not present when this picture was taken.

pass interceptions by Dana Fearon. Captain Ted Sullivan also stood out on offense and defense for the Williams cause.

This win means that if the Ephmen can tie or defeat Amherst at Amherst in their final game of the season they will win their fourth consecutive "Little Three" title.

Whether they win or lose this coming tilt, Williams has proved that they may be down but never out. The spirit is there and if Coach Watters can keep the boys fired up and determined to win, the crown again will come to roost in Williamstown. Remember, "Follow the Purple".

### Soccer

The Williams boys dropped their second game of the year, but it ruined their chances of contending for the "Little Three" title.

Wesleyan won a hard-fought grueling contest, 1-0.

The only other team to dump the Chaffee-coached clan was Springfield and they are still undefeated.

Once again, Paul Quinn, sophomore sensation, played a great game, even in defeat. This was the first time he was held scoreless in a match this year. Coach Chaffee has a real find in sophomore Quinn. This lad has scored in every game this season and plays a great game.

He began playing this sport in Spain and later in Rio de Janeiro.

### Drury-Adams

Before the largest crowd of the year, Drury and Adams squared off in one of their typical hectic games which saw Drury coming from behind twice to battle Adams to a 13-13 tie.

The biggest thrill of the game was when Drury put on the greatest goal line stand ever witnessed in Northern Berkshire when they held Adams on the two-yard line in eight plays during the waning minutes of the ball game.

Adams was the first to score as a result of a 69-yard run by Comeau in the opening stanza. Drury came right back after recovering a fumble and Joe Lescarbeau, who played a whale of a game, plunged over from the nine-yard line.

With the score 7-7, Drury recovered another Adams fumble on the 20-yard line and it appeared as though Drury, a two-touchdown underdog, would take the lead. But they fumbled it right back to Adams. That set the stage for a brilliant 80-yard run by Joe Vigna. Adams left the field at half time leading, 13-7.

It seemed as though both teams were hitting harder and running harder as the second half began. Then after an exchange of punts, Morin, the Drury left end, blocked

an Adams kick and fell on it in the end zone to tie the score, 13-13. Jack West's try for the extra point hit the goal posts and bounded back.

That ended the scoring, but Joe Lescarbeau, who seems to be the unsung hero for the Blue Devils, saved the day when he caught Joe Vigna from behind after it appeared he was on his way for a touchdown.

The final score was a fitting end for both teams as they really had played their hearts out.

### Jayvee Game

Pittsfield High defeated Drury High in North Adams, 22-7, in a Jayvee football game at Clapp Park in Pittsfield.

Fullback Doug Gordon scored two touchdowns for the winners. Both came on the end of double reverses. He went seven yards for the first TD in the opening period and 21 yards for the second in the third. Pittsfield's other TD was a 50-yard pass play from quarterback Craig Viale to end Ray Librizzi in the second period. Halfback Alan Clayton made a key block.

Drury averted a shut-out with Dick Milanesi scoring on a short run in the fourth quarter.

Life lived just to satisfy yourself never satisfies anybody.

## Congratulations to SPRAGUE ELECTRIC SERVICE

Good food, fine entertainment, and the presentation of the service pins comprised the program for the successful 1952 Sprague Electric Service Pin Dinner held at the Clarksburg Sportsmen's Club on October 27.

Over 150 people were present at the dinner honoring 20-year and 15-year employees. There were a number of special guests including Sprague Electric executives and the members of the Quarter Century Club at the banquet, and each person to be presented with a service pin was invited to bring a guest.

Master of ceremonies for the dinner was Jack Washburn, Director of Personnel. Mr. Washburn aided Robert C. Sprague in the presentation of the service pins and Mr. Sprague commented on the loyalty of the 20-year Sprague people "who were with us during our hardest days here" and praised the 15-year people "who helped when we were hitting our stride".

After the dinner and the presentation of the service pins, Mrs. Courtney Flanders played the piano for group singing. The evening was brought to a close with entertainment by Irving Vermont of Boston, card expert.

The following day, in-the-plant presentations of ten-year pins and five-year pins were made by the Foremen. Awarded were 231 ten-year pins and 99 five-year pins.

The entire Sprague Electric organization extends congratulations to those awarded service pins.

Gladabelle Ross and Elaine Shippee have returned from their vacations. They both received birthday cakes from the girls in stacking. Their birthdays were the first week of November.

The Halloween party held at the Vet's was lots of fun. Almost everyone dressed in funny clothes and some dressed in pretty ones. Prizes were given to those who were the most original: Chris Triceri, Marlene Schneider, Lucy Sinclitico, and Wanda Wandrei. Theresa Bushika gave every one a laugh with her bloomers; they were the old-fashioned type, very long. She also wore an old-fashioned nightgown. Some dressed as tramps; some as beautiful girls. There was even a bride and groom. Joan Shays and Marlene Schneider brought their cameras so we will have pictures in the next edition.

**Mincepie Drop Cookies**

2 cups sifted enriched flour  
1/2 teaspoon soda  
1/2 teaspoon salt  
1/2 cup shortening

butter for a delectable treat. Making it is no problem. Roll out yeast dough in a rectangular sheet. Brush with butter or margarine and spread with mincepie. Roll up like jelly roll. Cut into slices about one-inch thick. Stand the slices up in their original position in a well-greased loaf pan. After baking, top with a confectioners' sugar icing for extra goodness.

**Mincepie Loaf**

1 package yeast, compressed or dry  
1/2 cup water (lukewarm for compressed yeast, warm for dry)  
1/2 cup milk  
1/2 cup sugar  
1 teaspoon salt  
2 tablespoons melted shortening  
2 1/2 cups sifted enriched flour (about)  
1 egg, beaten  
3 tablespoons melted butter or margarine  
1 cup mincepie

Soften yeast in water. Scald milk. Add sugar, salt and shortening. Cool to lukewarm. Add enough flour to make a thick batter. Mix well. Add softened yeast and egg. Beat well. Add more flour to make a soft dough. Turn out on lightly floured board and knead until smooth and satiny. Place in greased bowl, cover and let rise in warm place until doubled (about 1 1/2 hours). When light, punch down. Let rest 10 minutes. Roll out in rectangular sheet 8 x 14 inches. Brush with butter or margarine and spread with mincepie. Roll up like jelly roll, sealing edge. Cut into slices about one-inch thick. Stand the slices up in their original position in a well-greased 8 x 4 x 4-inch loaf pan. Let rise until doubled (about 1 hour). Bake in moderate oven (350°F.) about 40 minutes. Makes 1 Mincepie Loaf.

November is Pumpkin Pie Time. Fill your kitchen with that old-fashioned odor of spicy pumpkin pie. The family will exclaim over the custardy goodness of this November pie favorite. You'll delight the children if you top a pie with pastry cut-outs of pumpkin faces and miniature turkeys.

There will be no problems with "what-to-do-with-leftover-turkey" if you treat the family to Turkey Whirls with Cranberry Sauce. To make Cranberry Sauce simmer 1 cup water, 1 cup sugar and 2 cups raw cranberries for 10 minutes. Pour 1 1/2 cups of the sauce in the bottom of an 8-inch square pan. Whirls are made by sprinkling 1 cup cooked boned turkey over a 9-inch square of baking powder biscuit dough. Roll up like a jelly roll and cut into pieces about 1-inch thick. Arrange pieces on Cranberry Sauce in square pan. Bake in moderate oven (400°F.) 20 to 25 minutes. Serve hot with remaining Cranberry Sauce. Makes 4 servings.

For Thanksgiving--thank a lady! For seventeen years Mrs. Sarah Josephy Hale, an energetic woman of the 19th century, labored to achieve a national holiday of Thanksgiving. Finally in 1863, Lincoln accepted her suggestion and issued a Proclamation of Thanksgiving. Since then Thanksgiving has been an annual November holiday.

Thanksgiving desserts in Mrs. Hale's time took hours to prepare. She'd be surprised to see the quick and easy desserts found on the Thanksgiving table today. Magic Pudding is an example. Mix together 1/2 cup tart cranberry jelly, 1/2 cup fine enriched bread crumbs and a pinch of salt. Whip 1 cup whipping cream and fold

The Alert Citizen Is The Country's Guardian

THE FBI, under the security program as defined by Executive Orders and Congressional enactments, has responsibility for the investigation of espionage, sabotage, and subversive activities within the United States. It can discharge that responsibility only with the full cooperation of patriotic Americans. The FBI needs you. You, who are producing materials and weapons for the defense of the United States are in a vital position to protect the internal security of this Nation. You are the lead patrol on the security front; the sentinel nearest the danger area.

The FBI's function in the security field is purely investigative in nature. The FBI is interested in the facts which you believe may indicate a threat to national security.

It is not interested in rumor and gossip.

The following are general guideposts to the type of information which should be reported directly to the FBI:

1. Allegations of espionage, sabotage, or subversive activities.
2. Foreign submarine landings.
3. Suspicious parachute landings.
4. Possession and distribution of foreign-inspired propaganda.
5. Theft or unauthorized possession or purchase of large quantities of firearms, ammunition or explosives, or short-wave transmitters and receivers.
6. Poisoning of public water supplies.
7. Chartering of airplanes for flights over restricted areas.
8. Fires and explosions of an unusual nature affecting any phase of the defense program.
9. Suspicious individuals loitering near restricted areas.
10. Possession of radio-active materials.
